

## **IT Security Committee Charter**

The campus acknowledges the critical, ongoing need to provide a comprehensive oversight process designed to protect its information assets and electronic systems. The IT Security Committee (ITSC) is charged to coordinate and direct the development of appropriate campus policy to address that need.

The ITSC will be advised regarding assessment activities, and will provide advice regarding education and communication that may be needed to support the policy and compliance measures developed. ITSC will suggest resources needed for the campus to manage IT security. These will be balanced with what are considered to be reasonable and acceptable levels of risk to be assumed by the campus.
