

Advisory Committee for Information Technology

Meeting Notes

MEETING DATE: 6/12/13

TIME: 1:30-3:00PM

LOCATION: 212 KERR HALL

ATTENDEES

D. Sonnenberg (co-chair), M. Doyle (co-chair), V. Steel, M. McCue, A. Hesse, J. Phillips, , M. Edmonds, D. Hartline, G. Gaither, T. Lawson, P. McMillan, S. Madden, A. Sahni, L. Beaston, D. Symonik, M. Aluffi, B. Smith, S. Matthews, L. Swan (staff)

GUESTS

Announcements [M. Doyle]

David Sonnenberg replaces Ginny Steel as ACIT co-chair.

Linda Beaston replaces Linda Rhoads as EVC designate.

Update on CIO search at UCOP. Five people were interviewed last week, with two remaining. Will make announcement in mid-July.

Google has changed our storage limits to a 30 GB unified storage between Drive, Gmail and Google+ photos.

UC IT Accessibility Policy [J. Phillips]

Campus feedback/comments on policy and regulations draft (see below) are due to UCOP by July 22. ACIT will provide input to Ashish to include in the campus response. Policy is that every campus makes a good faith effort to be accessible. Committee feedback included:

- Concern with cost: what is the range/ballpark?
- How do we bring compliance as a federal requirement? Who do we bring in?
- Seems too broad for just one individual to look at all areas and the implications that will arise. Wouldn't a group be better?
- How do we adhere to the compliance policy and also the copyright laws? This can lead to workload issues.
- Are we equipped for this?
- We shouldn't spend time going back in existing systems but going forward case by case seems the feasible thing.
- What are CSU's doing? Does it make sense to include that in the feedback?
- Can this be integrated into the ticket system?
- This is not just limited to our constituency. We are talking about web presence, etc.

Telecommunications Master Plan Update [D. Hartline]

As the program is now out of the planning stage and into implementation, the new name is Telecommunications Infrastructure Upgrade.

See [PowerPoint](#) presentation for details.

UCPath Update[M. Doyle]

Mary discussed issues regarding resources, testing plans and UCPath center.

The project is being implemented in waves of locations. The focus to date has been on Wave 1 locations (UCLA, UCSC, Merced and UCOP) and now will be more directed to Wave 2 and 3 campuses (everyone else). Current issues of concern are the loss of PM and Oracle resources at UCOP as well as unsuccessful data conversion attempts – this will be an iterative process over several months. UCPath Center is working on resolving telephony (call handling) issues as well as case management tool shortcomings.

UCSC team has lost a key member to retirement. Staff in both functional and technical roles continue to be committed to hit deadlines and make progress on project work streams to the extent possible.

ACTION ITEMS	ASSIGNED TO	DELIVER BY
Provide input to Ashish for campus response to UC IT accessibility policy and requirements	Mary	Early July

Next meeting: Wednesday, July 10 1:30-3PM 212 Kerr Hall
