Subject: Assistant Research Position.

Dear UCSC Students,

We are excited to offer a unique opportunity for students at UCSC through a Remote Research Assistant role within the Computer Science Department. This position is open to all students, regardless of their department or academic year.

Position Overview:

Title: Research Assistant (Remote/Part-Time)

Location: UCSC (Remote)

Stipend: \$450.00 per week

This role is structured to fit your academic schedule, providing a great way to gain experience while managing your studies. As a Research Assistant, you will work on engaging projects, have access to essential research tools and databases, and develop your skills in a supportive team environment. Additional benefits include access to a discounted Student Health Insurance plan and Professional Development Funds, based on availability and performance reviews.

Eligibility:

Current UCSC enrollment

Strong organizational and communication skills

Ability to work both independently and collaboratively

Open to all experience levels

How to Apply:

Please submit your application directly via a Gmail or ProtonMail account (please avoid using school email addresses to ensure the privacy of your application). Send your resume to Professor [REDACTED] at ProfColleenJoseph@protonmail.com with the following information: your name, phone number, major, and anticipated graduation year.

We look forward to potentially working with you on groundbreaking research projects!

Best regards,

Sandra Ann
