

# Secure Wireless at UCSC!

**Available to all UCSC students, researchers, faculty, and staff**

- **Secure wireless connectivity across campus**
- **Can also be used at other participating universities**
- **See <http://its.ucsc.edu/wireless-secure/> for information and set-up instructions.**

**➔** *Information sent via unencrypted wireless is especially easy to intercept. To protect yourself, only use known, encrypted networks like eduroam when working with sensitive information.* **➔**

**Contact the ITS Support Center for assistance:  
help@ucsc.edu • itrequest.ucsc.edu • 459-HELP • 54 Kerr**
