

October is National Cyber Security Awareness Month

Google™ Apps @ UCSC

is coming soon!!

Enhanced security features with Google:

- Better spam and virus filtering
- Ability to check for suspicious account activity
- Optional two-factor authentication

Google is great for mobile devices!

- All devices used for work must meet UC & UCSC security requirements
- **Tips for protecting mobile devices:**
its.ucsc.edu/security/stay-secure/minreq/mobile.html

Good security practices still apply:

- Encrypt highly sensitive information when storing or emailing it. This includes attachments.
- Ask ITS for assistance or alternatives

Contact the ITS Support Center for assistance:
itrequest.ucsc.edu • help@ucsc.edu • 459-HELP • 54 Kerr
