

Wait! Should you really open that attachment?

If it's suspicious, don't open it!

What is suspicious?

- Attachments not expected or addressed to you
- Wrong or odd file name
- Attachments with suspicious or unknown file extensions (e.g.: *.exe, *.vbs, *.pif, or *.zxx)
- Web link to access attachment
- Unusual topic lines; "Your car?"; "Oh!"; "Nice Pic!"; "Family Update!"; "Very Funny!"
